

A large, three-dimensional sign spelling 'LUMSDEN' in a serif font, mounted on a concrete wall. The sign is set against a backdrop of a landscape with trees and mountains under a cloudy sky. In the foreground, there is a dense, green bush.

LUMSDEN

The title 'LUMSDEN Community Response Plan' is centered on a background with a repeating geometric pattern of interlocking shapes in shades of green and grey.

LUMSDEN
Community Response Plan

Southland has NO Civil Defence sirens

(fire brigade sirens are not used to warn of a Civil Defence emergency)

Please take note of natural warning signs as your first and best warning for any emergency.

Lumsden Community Response Plan 2019

Find more information on how you can be prepared for an emergency

www.cdsouthland.nz

If you'd like to become part of the Lumsden Community Response Group please email community@cdsouthland.nz

In the event of an emergency, communities may need to support themselves for up to 10 days before assistance arrives

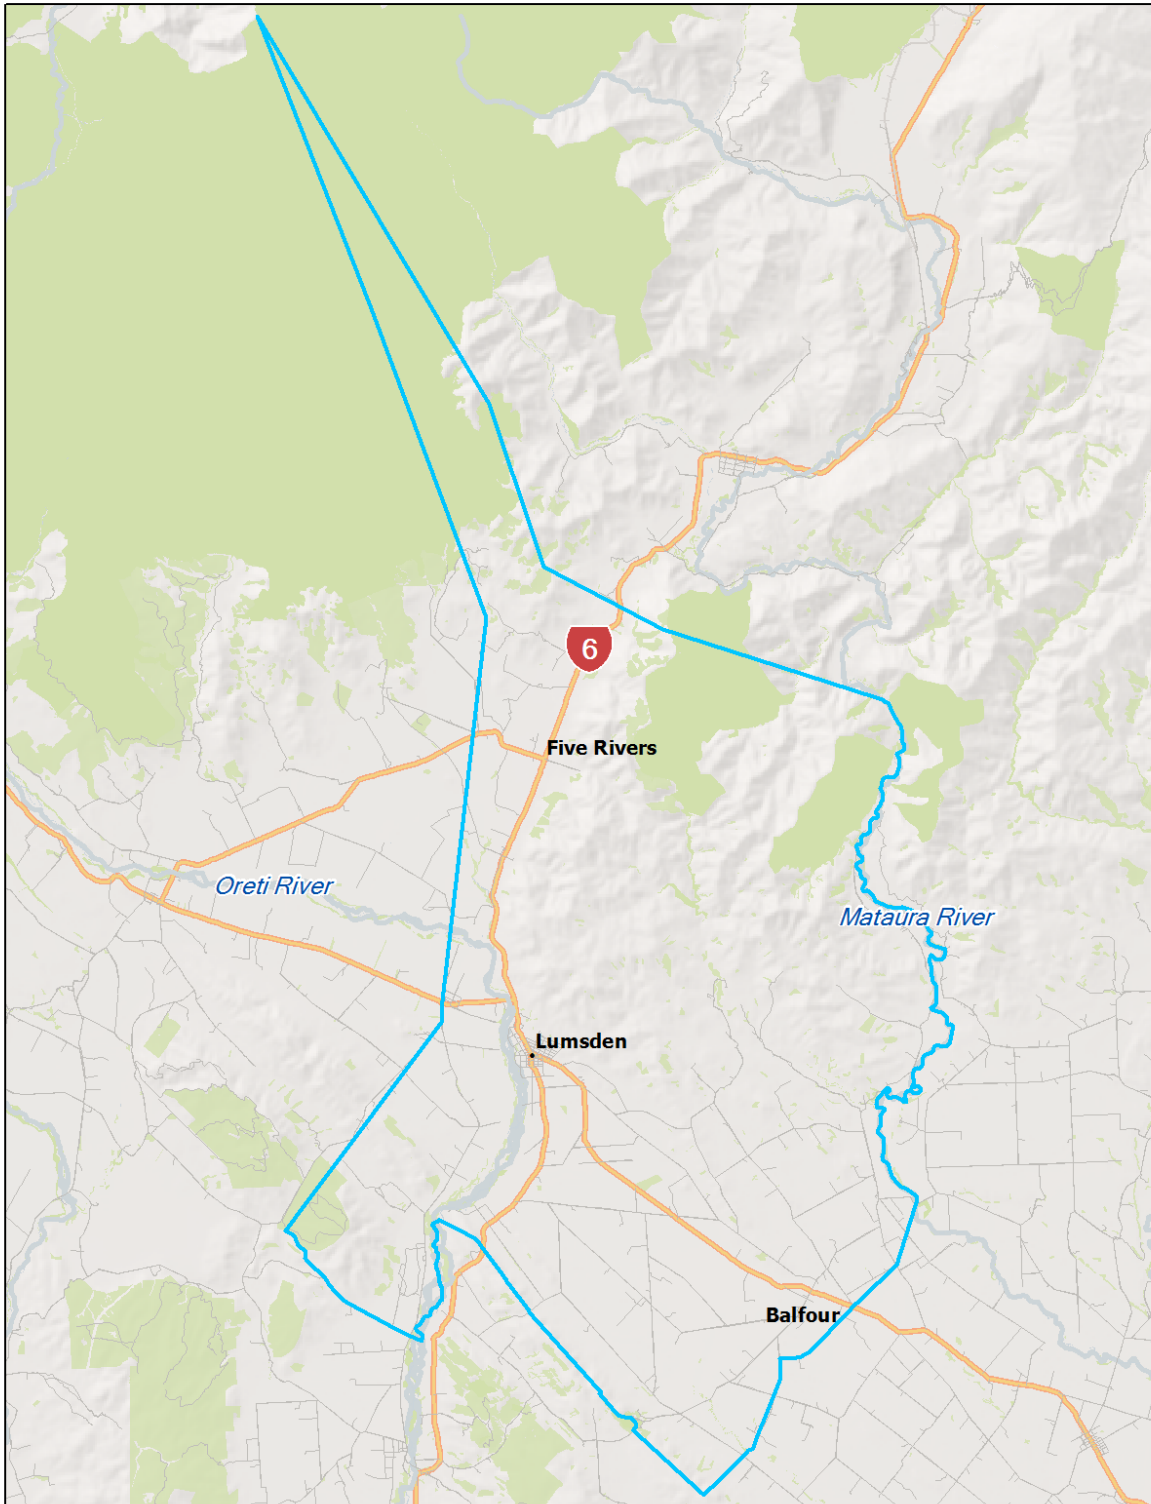

Community Response Planning

The more prepared a community is the more likely it is that the community will be able to look after themselves and others. This plan contains a short demographic description of Lumsden, information about key hazards and risks, information about Community Emergency Hubs where the community can gather, and important contact information to help the community respond effectively. Members of the Lumsden Community Response Group have developed the information contained in this plan and will be Emergency Management Southlands first points of community contact in an emergency.

Demographic details

Lumsden is located halfway between Invercargill and Queenstown. It sits on the crossroads of major transport routes in the lower South Island, between Invercargill and Queenstown, and between Te Anau and Gore.

- Lumsden is contained within the Southland District Council area;
- Lumsden has a population of approximately 405 and the town services a total population of about 3000;
- the town is a service area of agricultural goods for a large farming community with agriculture being its biggest industry, along with forestry and fishing.
- the town has a medical centre, police, ambulance and fire service, one primary school, as well as two in the wider district, one high school and various preschool options;
- the broad geographic area for the Lumsden Community Response Plan includes Dipton, Five Rivers, and Balfour. Refer to the map opposite for a more detailed indication.
- this is not to limit the area but to give an indication of the extent of the geographic district. Flexibility needs to be maintained considering that a specific disaster may render existing geographical boundaries irrelevant.

Hazard and Risk information

Potential hazards and risks for the Lumsden area include:

Earthquake

- Like much of the South Island, the Lumsden area would be affected during an Alpine Fault earthquake. The most likely impacts for Lumsden would be loss of lifelines causing loss of communication, water supply, power and road disruption.

Flooding

- Lumsden has been affected historically by flooding including the 1968 and 1978 floods. The entire town is at risk of flooding but stop banks in the area have helped to mitigate this risk.

Agricultural and biosecurity

- Lumsden plays a role in supporting agriculture industry. Any impacts to livestock or for land use could have major economic and health impacts especially around psychosocial impacts.

Road Infrastructure damage

- Lumsden is situated on SH6 and is a main thoroughfare for tourists. The town provides industry and goods to surrounding areas, and anything which may impact the delivery of goods to service the area needs to be considered.

Identified potential vulnerable sub communities

- Schools: Lumsden School (approximate roll 93), Dipton School (approximate roll 66), and Balfour School (approximate roll 90-100), Northern Southland College (approximate roll 203)
- Lumsden Playcentre (approximate roll 14), and Riverstones Early Learning Centre (approximate roll 61), and Five Rivers Playgroup;
- Home based childcare providers
- Elderly in the community
- Rurally isolated people including migrant employees
- People with disabilities
- People with life threatening medical needs – the DHB and local medical centre can source this information if needed

Community Emergency Hubs

Community Emergency Hubs provide pre-identified places where the community can gather in the event of an emergency. Not all Hubs will be suitable during an emergency, and it is up to the community to decide at the time. It is possible that a new venue will need to be found, but the concept of a location where the community gather is vital during a response as people seek immediate support, shelter, comfort and information.

Each pre-determined location will be provided with a hub guide and be able to access advice from Emergency Management Southland if they require further information or support.

In Lumsden, Community Emergency Hub locations identified by the community are:

- Lumsden Memorial Hall; Hill Road, Lumsden 9730
- Lumsden GP Hall; 51 Maria Street, Lumsden 9730

Don't forget, if you are opening a hub you can bring some basic resources with you such as:

- Tea and coffee
- Milk and biscuits
- Toilet paper
- First aid kits
- Torches

Community Response Groups into Recovery

Community Response Groups will be vital during the recovery of a community. They will be able to act as a connection between the community and the recovery team. They will have key local knowledge and understand the effects of decisions on the local community. They will be able to identify areas of the most importance to the community and suggest ways to work towards the communities' end goals. The process around community recovery will be described in greater depth in the Southland Recovery Plan.
